GREATER MANCHESTER PREPARED

SESSION ONE: TOWARDS RESILIENCE FRAMEWORK IN SRI LANKA

Time Management

- ❖ **Introduction** : Dr. Chaminda Pathirage, Director, Centre for Disaster Resilience, University of Salford, UK (5 mins)
- ❖ **Presentation 1**: Sendai Framework and expected measurable outputs - Mr. Wijsekara Chandradasa – (25 mins)
- ❖ **Presentation 2**: Current Global Resilience Frameworks, Category and Components – (10 mins)
- ❖ **Digital Participatory Exercise** on Resilience – (20 mins)
- ❖ **Participatory Exercise** on **Category and Components** of Resilience Framework –(30 mins)

Presentation 1 :
Sendai Framework and expected measurable outputs –
Mr. Wijesekara Chandradasa

PRESENTATION 2 : CURRENT RESILIENCE FRAMEWORK

Dr. Chaminda Pathirage, Director, Centre for Disaster Resilience, University of Salford, UK

Dr. Komal Aryal, Research Fellow, THINKlab, University of Salford, UK

www.mobilise-project.org.uk

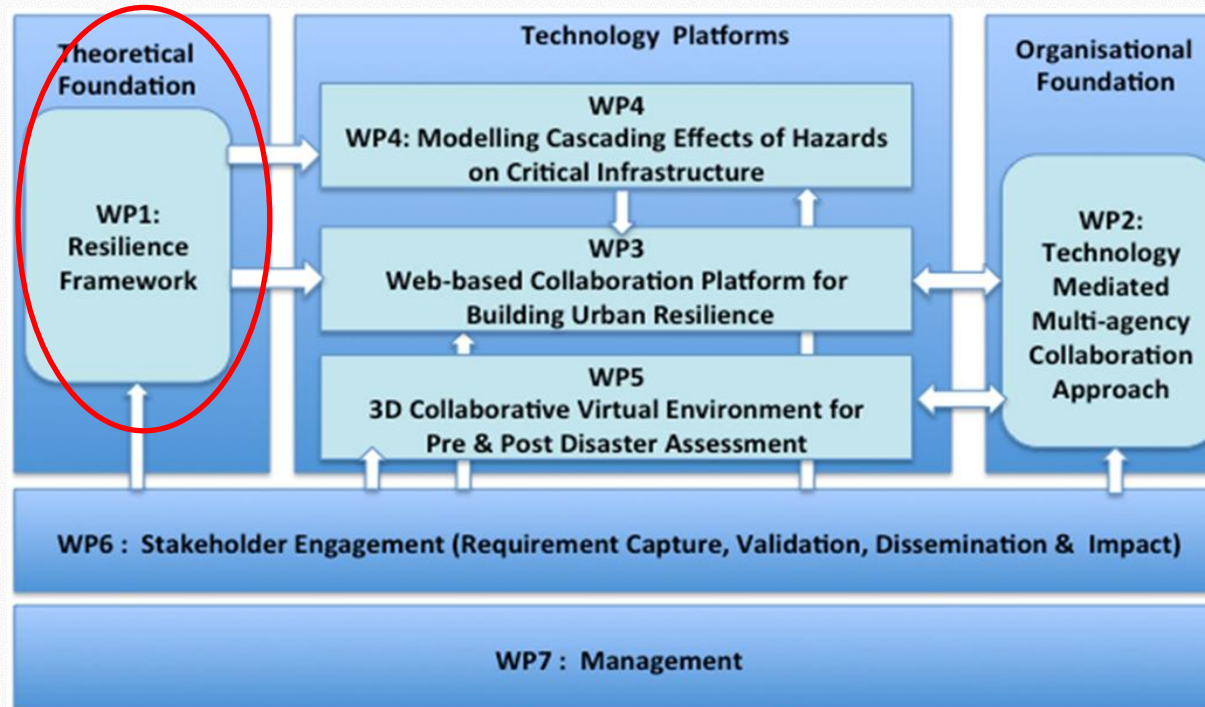

Objectives

- ❖ Discuss definition of resilience and resilience framework
- ❖ Explore resilience framework characteristics in the context of Sri Lanka through participatory exercise.

Background

MOBILISE Workpackage Structure

Summary Outcomes from global literature reviews on resilience and resilience frameworks

Google / Google Scholar , Social Media based information (LinkedIn), Facebook groups on:

**Resilience,
Resilience framework,
Community resilience,
Risk and resilience governance,
Country resilience
Disaster management
Business continuity plan
Crisis management
Risk governance
Risk and safety
University of Salford library web searches**

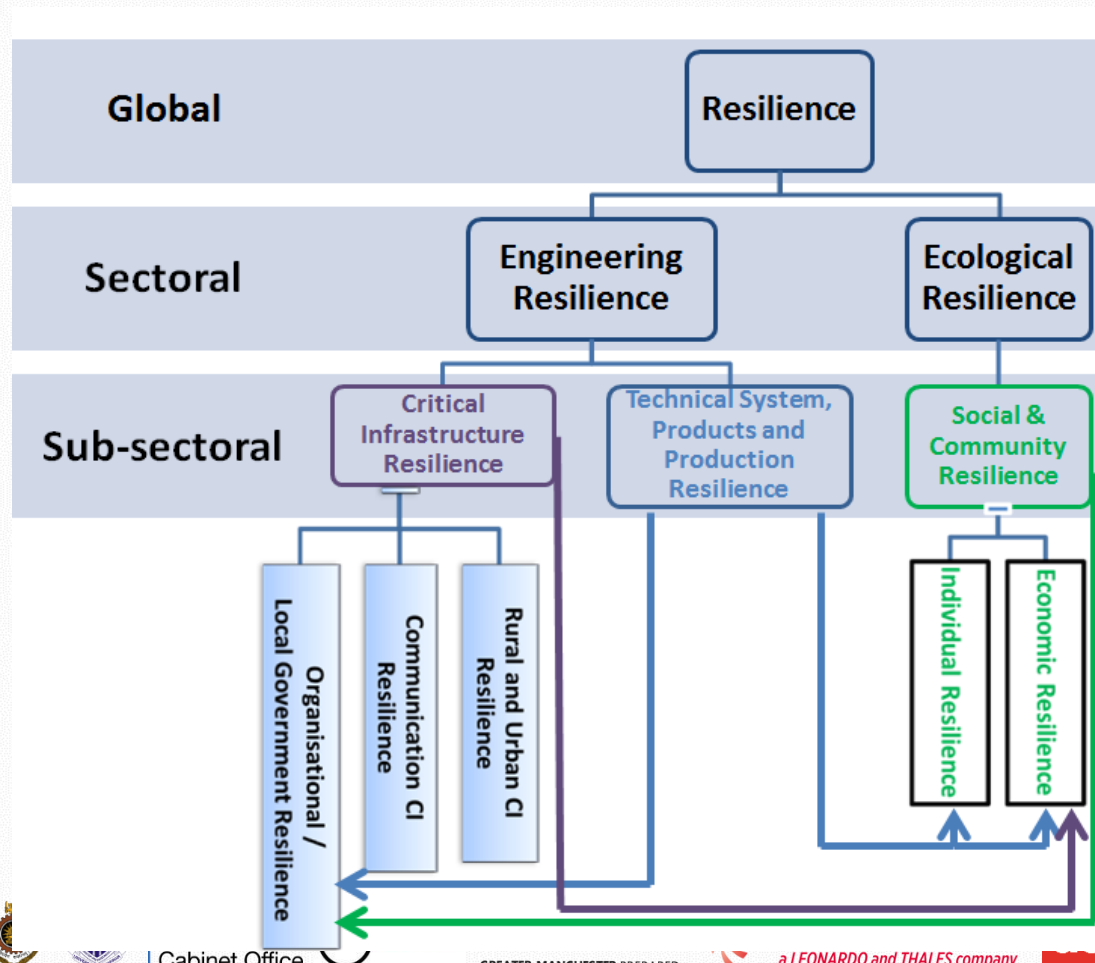

(From 07th Oct,2017- 02nd Feb.2018)

2763 definitions

127 Resilience Frameworks

Key organisations, individual and sectors (health, education, Infrastructures, etc..)

RESILIENCE TREE (Definition and Framework)

Summary Outcomes from global literature reviews on resilience and resilience frameworks

- ❖ **Resilience definition:** over 307 (*but new ones keep appearing all the time*)- **48 Resilience Frameworks**

Common elements of resilience definitions are-

- ☐ Context (C)
- ☐ Disturbance (D)
- ☐ Capacity to deal with disturbance (CD)
- ☐ Reaction to disturbance (R)

(Source ; UKaid, 2011)

Definition: Resilience (with few examples)

What is Resilience ?

Disaster Management Centre (DMC) through **Sri Lanka Community Resilience Framework** defines community resilience as :

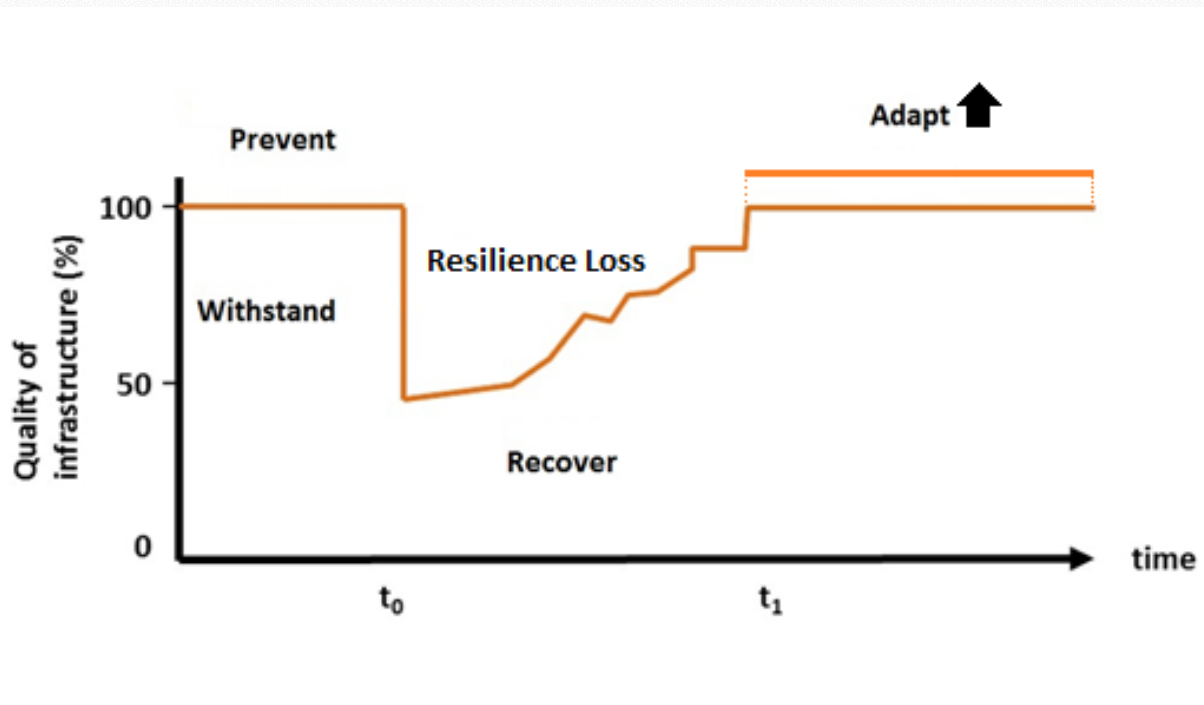

“Ability of a community to “**bounce back**” and **recover** using its own resources’ and also the **ability** of groups or communities to **cope** with external shocks and stresses as a result of social, environmental and political change”

EU CIRCLE Project **resilience** defines:

Capacity to **resist, absorb, accommodate** to and **recover from** the effects of hazards in timely and efficient manner through **preservation** and restoration of structure and functions.

The Department for Disaster Development (**DFID**) or now **UKaid** (2011) defines **disaster resilience** as : “Disaster Resilience is the **ability** of countries, communities and households **to manage change**, by **maintaining** or **transforming** living standards in the face of **shocks** or **stresses** - such as earthquakes, drought or violent conflict - without compromising their long-term prospects”.

EU CIRCLE RESILIENCE DEFINITION

Activity 1: Towards working definition of community resilience in Sri Lanka through **Digital Participatory Exercise (DPE)**

Instruction

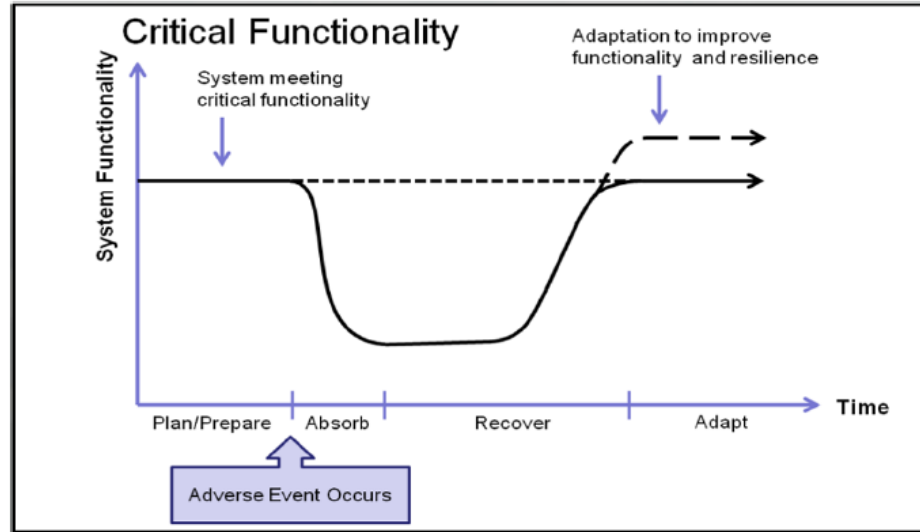

Step 1 : Please go to <https://pigeonholelive.com/>

Step 2: Please Event Passcode : RESIL2018 as shown in the picture

Step 3: Instead of question, please insert a key word Or phrase that should be a part of working definition

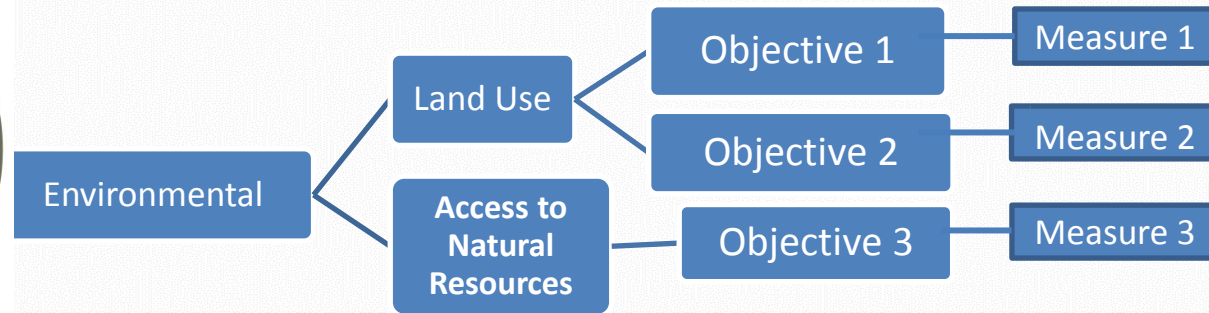

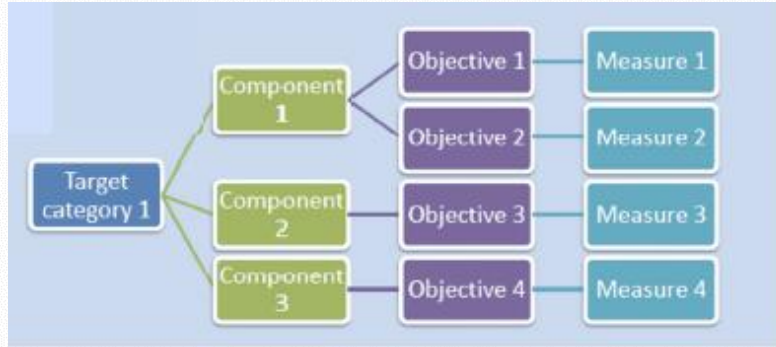

Understanding Resilience: Definition and Concepts

Using a U –curve in a system functionality versus time axis system.

Activity 2 : Participatory Exercise on Category and Components of Community Resilience Framework of Sri Lanka

The superior man, when resting in safety, does not forget that danger may come. When in a state of security, he does not forget the possibility of ruin. When all is orderly, he does not forget that disorder may come. Thus his person is not endangered, and his States and all their clans are preserved.

Confucius (K'ung-fu-tzu) (551–479 B.C.)
